Herbert Byrne of Asbury College, Wilmore, filled the pulpit Sunday evening for Rev. Garriott. There was a good attendance and many complimentary remarks were made in favor of the visiting preacher.

MORE EXCITEMENT ABOUT RABIES

We were surprised this week to learn of two instances of animals that had symptoms suggestive of rabies. One was a cat that bit a boy, and was at the time plainly "not right," and unsteady on its feet. It was a strange cat that had not been seen around the place before. It was later found paralyzed, or at least unable to walk, and was killed for the purpose of sending its head to the state laboratory for examination to see if it had rabies.

The other was a case of a dog that appeared well to his master Sunday morning, but during the day developed some sort of trouble. Possibly "running fits," or possibly rabies, and was found dead that evening by the creek, without any marks of external violence. The dog's head has also been sent off to the state laboratory for examination.

These cases call for some comment. Rabies, or hydrophobia is a highly fatal disease caused by a living organism too small to be seen with a microscope, that is what we call a "filterable virus." There are, however, in the brain and spinal cord of animals or people dying of rabies, certain peculiar bodies that can be seen with a microscope, and are not found in any other condition. These are called "Negri" bodies, after their discoverer, Negri. It is these Negri bodies that are searched for in the heads of animals which we send to the laboratory to be examined for evidence of rabies.

Rabies is commonly supposed to occur only in the warm weather, but as a matter of fact, it occurs at all times of the year. Dr. Rosenau of Harvard says that it is in fact more prevalent in the cold weather. Regarding the relative danger of bites, Dr. Rosenau also states, that "wolf bites are the most dangerous on account of the savage character of the wound and the virulence of the virus. Cat bites come next and then dog bites."

All animals that suckle the young (including man) are susceptible. Even some birds have been infected with the virus. There is an instance from antiquity of the death of a king who was bitten by a mad squirrel.

Space does not permit a long discussion here of this interesting subject. There are three important lessons, however, here for the people of Morgan county, who, about two years ago, lost one of their citizens to this cruel disease.

The first lesson is: Every dog and cat in the county should be vaccinated against rabies, which can be done at the slight cost of about twenty-five cents a head, or even less in large quantities.

The second lesson is: Whenever any one is bitten by an animal that is suspected of rabies, DO NOT KILL THE ANIMAL; BUT SHUT IT UP SO THAT YOU CAN WATCH IT AND SEE WHETHER IT DIES. If it has rabies it will certainly die. If it has rabies that has gone far enough to affect its behavior, it will die in three or four days, more often in one or two days. After the animal has died, then get a pair of rubber gloves and with gloved hands cut off the head, pack it in a can that can be soldered tight shut, and pack this can on ice in a larger can, which is to be soldered shut, and sent to the laboratory.

The third lesson is, that even though you may have been bitten by a rabid animal, you can be saved from a horrible death by taking the Pasteur treatment. In all doubtful cases the Pasteur treatment should be given, and will be given by any physician, or by the Health Department, if the bitten person will only make his plight known before it is too late.

All persons who have been bitten by animals should set themselves the task of guarding until the animals that did the biting until it can be found out whether rabies was the cause. NEVER KILL THE ANIMAL, BUT SHUT IT UP AND LET IT DIE IF IT WILL, FROM THE DISEASE. The animal that bit you is your best source of information. Guard it with a shotgun, if you have to, to keep somebody from killing it. If the animal doesn't die, you don't need to worry. If the animal does die, then you had better take the Pasteur treatment. In any case of bite, call your family doctor, so that he may properly cleanse and cauterize the wound, and notify the health department, so that you may

have help in determining whether the animal that bit you had rabies, and help in getting the treatment promptly, if you need it.—WALLACE BYRD, M.D., Director, Morgan County Health Department.

WHAT IS THE ANSWER?

Tuesday, February 14.—We have received today from the State Health Laboratory a report on the examination of the cat's head, as follows: "Regret to advise that the cat had been killed by a shot in the head which so damaged the brain that the bacteriologist was able to dissect out only a small portion of the hippocampus major or Ammons horn for examination, other portions were too badly damaged for identification. A microscopic examination of four slides failed to show the presence of Negri bodies, but the number of slides prepared and the nature of the material was so unsatisfactory and bloody that we cannot state definitely that this animal was negative for rabies."

If the animal showed symptoms suspicious of rabies, would advise treatment as a precautionary measure to anyone bitten or exposed to infection.

Yours very truly,
LINWOOD A. BROWN, Director, Department of Public Service Laboratories.

MORAL: If you suspect an animal of having rabies, DON'T KILL THE ANIMAL AND DESTROY YOUR BEST EVIDENCE. If for any reason you should kill the animal, don't shoot it in the head.—WALLACE BYRD, M.D.

Naughty Weatherman

Future weather condition are always uncertain but at this time of year it seems that the weatherman just delights to show off his capriciousness. On Tuesday we wrote a fine little dissertation on "Spring." The linotype operator barely got the article set up when it began to snow and the air took on a chilly feel. It snowed more or less all night and on Wednesday morning the thermometer registered ten degrees. Most of the snow melted as it fell up to midnight but about two inches had accumulated by Wednesday morning, it is still snowing as we write this, and we are inclined to let the weatherman have his way about the matter.

Birthday Party

The honor guests of Miss Ruth Craft gave a birthday party Saturday, February 18, 1939. Those present were: Imogene Nickell, Mary Nickell, Jerry Nell Rose, Leatha Nell Blair, Lorene Wingo, Ella Jo Blair, Betty Jo Whitte, Joan Lacy and Walter Blevins. Refreshments of jelly cake and hot chocolate were served. We wish that she will have many more happy birthdays.

WEDDING ANNIVERSARY

Mr. and Mrs. W. T. Stamper of Cannel City, had the pleasure of celebrating their 50th wedding anniversary, Sunday, February 19, with a reunion of their children and grand children.

Those present were: Mr. and Mrs. A. H. Anderson, Mr. and Mrs. Eugene Anderson, Mr. and Mrs. Ernest Anderson, Virgil Anderson and Emma Louise Anderson of Combs; Mr. and Mrs. G. E. Nickell, Vincent, Elmo Maurine, Tommy and Edisson Nickell also of Combs; Mr. and Mrs. Victor Stamper, William Murphy, Mary Lou and Betty Jean Stamper of Hamersville, Ohio; Mr. and Mrs. D. P. Peyton, Alex and Dorsie Jr., Peyton of Cannel City; Mr. and Mrs. Leonidas Peyton of West Liberty. The neighbors who were present on this occasion were as follows: Mr. and Mrs. O. B. Little and Bulous Little of Stacy Fork; Mr. and Mrs. J. W. Benton Gladys Benton, Miss Connie Elam, Mrs. Lee Peyton, Mr. and Mrs. Edd Sebastian, little baby, and Walter, Mr. and Mrs. Asa Carter, Mr. and Mrs. J. D. Benton and Miss Dora Lee Benton all of Cannel City; Mrs. Serena Wells, Peyton.

The most delicious dinner was served and every body enjoyed it very much. Each and every one presented nice presents to Mr. and Mrs. Stamper.

The afternoon was enjoyed very much by taking pictures of the entire group. Many beautiful songs were sang by the choir and in closing the day we didn't fail to return thanks to our heavenly Father for being so kind in granting the privilege of reuniting the entire family once again in life. The 103d Psalm was read and prayer was offered by Bro. J. W. Benton.

TIBETAN SALUTE

In Tibet when one man greets another it goes beyond the mere shaking of hands. A Tibetan bows, extends both hands palms open and sticks out his tongue! This means that he is a friend. He has no knives in his hands and no evil words on his tongue!

The sticking out of the tongue part of the salute interested me the most. Few of us go about with knives in our hands, but many of us have words as sharp as knives on our tongues! With those words we can say cutting things which make others unhappy, discouraged, fearful. We can ruin careers, set men against men, create jealousies, and destroy as viciously as a soldier with a sword.

I like the Tibetan idea. If we would enter our relations with men with no evil words on our tongues, if we would refrain from intolerant, bitter and unkind remarks what a changed world this would be.

Of course, sticking out one's tongue has another meaning in America. We don't want to have people think we are giving them the Bronx Cheer. But we can follow the Tibetan idea of disarming our tongues without showing them. And that's all that counts!

SEWING CIRCLE MEETING

The Cannel City Church of God Sewing Circle met with Mrs. J. D. Benton, Friday, February 10, for their regular meeting. Present were: Mrs. J. W. Benton, Mrs. W. T. Stamper, Mrs. Arthur Gathman, Mrs. Lonnie Patrick, Mrs. Chalmers Benton, Mrs. Marcum Bach, Mrs. Seigel Elam, Mrs. Bert Morris, Mrs. Frances Benton, Miss Gladys Benton, Mrs. M. H. Ferguson, Misses Aileen Benton, Dolores Ray Ferguson, Miriam Gathman and Billy Benton.

The meeting was opened by singing, "What a Friend" and "Near the Cross." The hostess read the 55th chapter of Isaiah for the devotional. The Lord's Prayer was repeated by all.

After the regular business session the work on the quilt top was taken up and progressed nicely. During the social hour the hostess, assisted, by Miss Gladys Benton, served delicious refreshments consisting of butter scotch pie, cookies and coffee. The afternoon was enjoyed by all. We adjourned to meet with Mrs. Lonnie Patrick, Feb. 24.

Fire in Town

A small barn on the lot of Mrs. Winfred Salyer on Water Street was completely consumed by fire on Saturday of last week. The fire is reported to have been the result of children playing with fire in the barn. Other property was endangered for a time but the bucket brigade was able to confine the loss to the

NOTES AND COMMENTS

What rights, if any, have the children of West Liberty?

Hard work may scare some people to death, but it has never killed them.

Proper newspaper advertising pays dividends to the advertiser and the reader.

Human beings are of two kinds—those who try to be helpful to others and those who do not.

At least one-half of the people in the world are busy trying to tell the other half how to live.

The human race is so constituted that there are certain individuals who cannot get along in peace.

Our own prediction is that Congress will vote additional funds for relief before adjourning.

The pay-off in the business world depends upon delivering the goods, not upon your intentions.

You cannot build up the financial resources of West Liberty by sending your money somewhere else.

The average inmate of our Federal prisons reads about fifty books a year. How do you compare with the convicts?

It might be pleasant to hear nice things said about you, but don't be simple enough to believe everything you hear.

It's about time for somebody to solve the farm problem. Since 1921, American agriculture has stayed in the dog-house.

A woman, in another state, recently died after a 35-day fast. As far as we are concerned, she can have the championship.

This is the time of the year that many men believe they can raise vegetables that look like the pictures in the seed catalogues.

America is a land where they do not want any smut in their seed wheat but where they like a little smut in daily newspapers and magazines.

Life in the United States will be revolutionized if this country goes in for war preparation on anything like the scale adopted in Germany and Italy.

A nation, as large and as powerful as the United States, should not be afraid to sell war materials to democratic countries even if autocratic powers dislike such sales.

If the American people really want to work for world peace, they might as well realize that economic barriers to the development of peaceful commerce between all peoples are one of the greatest sources of friction that lead to war.

SUNDAY SCHOOL ASSOCIATION

When the regular meeting of the Central Committee of the Kentucky Sunday School was held last week, in Louisville, Rev. George S. Watson, D.D., field representative for the Synod of Kentucky, Presbyterian Church, U.S.A., was elected Chairman of the Central Committee. Dr. Watson succeeds Rev. George A. Joplin, D. D., as chairman.

The Committee voted, also, to sponsor again the observance of GO-TO-SUNDAY-SCHOOL-DAY on the first Sunday in May which will be May 7th. This will be the twenty-fifth annual observance of the day. Kentucky was the first state in the Union to observe GO-TO-SUNDAY-SCHOOL-DAY. The observance, inaugurated in May, 1914, by the Kentucky Sunday School Association, has been the means of reaching many who otherwise would not have been reached. It was estimated, last year, that through the work of the Kentucky Sunday School Association and those cooperating, there was an increase of 15% in the attendance in the Sunday Schools of Kentucky on GO-TO-SUNDAY-SCHOOL-DAY. A goal of 20% increase over 1938 has been set for this year.

Churches and Sunday schools throughout the State are urged to cooperate in the observance of this day. Posters and suggestions for advertising may be secured without cost from the Kentucky Sunday School Association, 554 South Third Street, Louisville, Ky.

CARTER

Dave Carter departed this life, February 5, 1939, at his home at Zag, after 12 or 15 long years of suffering. Uncle Dave had a kind disposition and was loved and admired by all who knew him. He gave his heart to God early in life and lived a true and devoted Christian life until the end. He left this world giving praises unto God.

Uncle Dave will be greatly missed by his friends and relatives and especially his family. He leaves to mourn his departure his wife, Janie Carter, three sons, Willis Carter, Joe Carter, Charlie Carter, all of Zag; two daughters, Mrs. Jim Fairchilds of Zag; Mrs. Tom Vandye of Ill.; and a number of grand children.

Funeral services were conducted at the home by Rev. Jim Cottle of Dehart and Edwin E. Danna of Zag. The body was laid to rest in the Cottle cemetery. Our loss we trust, is heaven's gain.

Passing out of earth's shadows
Into a purer light
Going behind a curtain
Getting a clearer sight
Laying aside a burden
This weary mortal soil
Done with earth's vexation
Done with tears and toil
Passing out of earth's shadows
Into infinite day
Why should we call this dying
This beautiful passing away.

CARPENTER

Just a few hours before the evening sun made its escape in the west, on Wednesday evening, February 15, 1939, God called one of his children home, H. M. Carpenter of Twenty-Six, from the shores of time to await the Resurrection morning.

He was 75 years, 11 months and 4 days old. His health had been failing for some time but he was still on foot and going about and instantly died on his feet. He was loved and admired by all who knew him. He met every one with a smile and was ready to help the distressed in any way he could. He had a kind disposition and lots of friends. He leaves to mourn his departure one brother, Joe Carpenter, of Zag; five sons, Willie Carpenter of Omar, W. Va.; Joe and Roll and Garrett of Twenty-Six; John Carpenter of Woodbend; four daughters, Mrs. Neal Cox of Zag; Mrs. Mason Gummel of Woodbend; Mrs. Curtis Wilson of Day-boro; Mrs. Roll May of Woodbend; forty-five grand children; eighteen great grand children.

His entire life was one of industry and honesty and it was said of him that his word was as good as other men's notes. He enjoyed the respect of all who knew him and will be greatly missed. Funeral services were conducted at the home by Rev. Jim Cottle of Dehart, and Harlan McClure. The body was laid to rest at the home cemetery and now we the children are all alone for God has called Dad and Mother home; but we have an anchor that keeps the soul, steadfast and sure while the billows roll, fastened to the rock that cannot move, grounded fast and deep in the Savior's love.

Sixth Grade

The Sixth Grade pupils of Miss Cox's room gave a Valentine Party, Tuesday, 2:30 p.m. Refreshments of punch and cookies were served.

The Sixth Grade pupils are starting a unit on the study of birds. Tommy Williams composed the following poem:

LITTLE BIRDIES

Up, up in the sky
Where the little birdies fly,
Down, down in their nest,
Where the little birdies rest.
All the day long
They sing a sweet song
When darkness begins to fall
The little birdies fly to a tree so tall
When the little birdies are asleep,
Then you do not hear a cheep.
When the sun starts to shine,
They fly to a spruce or pine.
Then the birdies fly up, so high,
Where the wind passes by
When the moon goes away
The little birdies start to play
One for all and all for one,
That's the way they have fun.

Mrs. Archie McClain, Mrs. H. W. Carpenter and Mrs. Gordon Adkins visited the second grade room Friday.

PACK HORSE LIBRARY

Since the first of February the WPA has furnished 263 books to the Pack Horse Library in West Liberty, all but about 15 of these have been checked out and fifty of them were checked out the first day. These are fine books and we were very glad to receive them. A book and magazine shower at the WPA Pack Horse Library was well attended. Mrs. Curtis Franklin donated 5 books and 25 magazines, Robert Adams one book, Roy Fugittie one book, Victor Wheeler one book, Charles Davis one book, Ethel Cox of Pomp, 2 books and 12 magazines, Mrs. Roland Stacy 45 magazines and several other donations of magazines were received, any donations of books or magazines are always welcomed and widely circulated throughout the county. The library was closed for three days by order from Paintsville but is now open to anyone wishing reading material. There has been great interest shown and this has been a great benefit to many people.

Several of the stores have donated wrapping paper to cover the books with and Mr. Brong is always glad to give paper. This is a great help and the cooperation of these people is greatly appreciated.

BASKETBALL

Our basketball team got its seventh win of the season last Friday night by defeating Haldeman High School to the tune of 24 to 15. The boys continued their clever passing and showed some improvement at hitting the net.

All the boys played good ball and bad. There was no outstanding scoring man as all the team got some points. The work on rebounds was some better and the team was very aggressive on defense and made numerous fouls which they must avoid doing if they can last in the tournament.

The team closes its pre-tournament season this week, Tuesday night playing a fast team from Beattyville. Friday night traveling to Sandy Hook to wind up the schedule. Next week will be spent preparing for the tournament.

NOTICE TO TEACHERS

Teachers: All teachers who are interested in being employed for the school year 1939-40 please file applications with the county superintendent's office soon in order that plans can be made accordingly. There will probably be just a bit earlier. With Girl Scouts, you know, Mother and Home come first.

What is it all about? Why the Girl Scouts are to have a Silver Tea from 3-5, Saturday p.m. You say it is a lot of work? "Well, it is," they say, "but our Scout Captain and Lieutenant, Mrs. Nickell and Mrs. Byrne, are helping and just think, it is for our mothers."

The following is the little program they had: Clarinet duet, Betty Jean Nickell and Anna Ruth Lykins; vocal solo, Jean Whitt; Reading, Katherine Williams; Piano Solo, Betty Jo Whitt; Talk on Scouting, Lovel Brong; Trombone Solo, Jean Whitt.

The tea was just right, which the girls served so daintily, with their cookies. The service was in Girl Scout colors.

The visitors were: Little Gladys Wells, Miss Louise May, Mrs. J. L. Blair and Miss Margaret M. Brong.

The Girl Scouts present were: Margaret Ann Adkins, Lovel Mae Brong, Geraldine Caskey, Helen Elam, Anna Ruth Lykins, Anna Ruth May, Billy Nell May, Anna Jean Price, Betty Jean Nickell, Betty Jo Whitt, Jean Whitt, Catherine Wells, Katherine Williams.

They all smiled all the way thru they had such a jolly time.

THE VISITORS TO THOUSANDS

Hundreds of thousands of boys and young men read THE AMERICAN BOY Magazine every month and consider it more as a living companion than as a magazine.

"It's as much a buddy to me as my neighborhood chum," writes one high school senior. "THE AMERICAN BOY seems to understand a boy's problems and considers them in such a sympathetic and helpful way. It gives advice and entertaining reading on every subject in which a young fellow is interested. It is particularly helpful in sports. I made our basketball team because of playing tips I read in THE AMERICAN BOY."

Many famous athletes in all sports credit much of their success to helpful suggestions received from sports articles carried in THE AMERICAN BOY Magazine. Virtually every issue offers advice from a famous coach or player. Football, basketball, track, tennis, in fact every major sport is covered in fiction and fact articles.

Teachers, librarians, parents and leaders of boys clubs also recommend THE AMERICAN BOY enthusiastically. They have found that as a general rule regular readers of THE AMERICAN BOY advance more rapidly and develop more worthwhile characteristics than do boys who do not read it.

Trained writers and artists, famous coaches and athletes, explorers, scientists and men successful in business and industry join with an experienced staff to produce in THE AMERICAN BOY, the sort of reading matter boys like best.

THE AMERICAN BOY sells on most newsstands at 15c a copy. Subscription prices are \$1.50 for one year or \$3.00 for three years. Foreign rates 50c a year extra. To subscribe simply send your name, address and remittance direct to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Michigan.

JOLLY JOKER

BOB JONES' COMMENTS

When the writer was a boy in the country he had a good "possum dog." A good "possum dog" never leaves a "possum trail" to chase rabbits at night. The good "possum dog" sticks to the trail until he "trots" the possum. Many young people make the mistake of leaving the "possum trail" to chase rabbits. Such young people never "catch possums." They never "go places" in life. Across the "possum trail" sometimes the rabbit of love passes and instead of sticking to the "possum trail" and waiting until the "possum" is caught and then going back to chase the rabbit, they leave the "possum trail," chase the rabbit of love, get married, settle down to an ordinary life when they could have gone on and accomplished great things. Getting married and having a home is what God wants for most people, but He doesn't want young people to settle down until He, Himself, gets ready for them to do it. Many young people leave the "possum trail" because the rabbit of love crosses the trail of the divine purpose for their lives. Some leave the trail to chase the rabbit of a temporary job. The world is filled with "rabbit chasers" who have failed because they did not stay on the "possum trail." Every human being who gets on the "possum trail" of God's purpose for his life and stays on that trail until the "possum" gets up the tree, will be successful. The "rabbit chasers" on the "possum trails" of life are always failures.

God has a will for every life. God did not just create us and put us in this world to flounder around. When we were born God stood at our cradle with a wonderful plan for each of us. Most of us have been stubborn. We have defied God. We have crossed His purpose for our lives. We have refused to heed His command. We have stood still when He said, "Forward March!" We have turned back at the swollen stream of difficulties. We have refused to walk the thorny way, but have chosen to go the easy road. Very few of us are all we could have been. The fact that we are anything at all is due to the power and grace of a sovereign God who would not let us go when we were stubborn and mean. Practically all of us are broken vessels in the hands of the Potter. If our God had not been a kind and gracious Potter, He would have thrown away some of us completely. But He has taken the broken vessels of our lives and remade them, not into vessels of honor, but into just ordinary vessels. If we could hear the voice of God He would be speaking like this, "I wanted you to be something wonderful, I had big plans for you. I am sorry you would not let me make you into the kind of vessel you could have been. I had to go against your stubborn will. You resisted me when I tried to mold the clay, but I love you. I have not thrown you away. As far as this world is concerned, I have done the best I could for you. When you get to heaven and look into the face of my Son and become like Him, you will then be wonderful, but you could have been wonderful even here in this world of sin."

CHLORINATED LIME

The people of Morgan county do not yet appreciate the beauty and virtue of chlorinated lime. I don't know how many have asked me if ordinary "quick-lime" wouldn't do to put into wells to purify them.

The answer is NO. Chlorinated lime and quick-lime are as much different as cows and mules. You could put a bucketful of quick-lime into your well and still get typhoid fever from drinking the water. But chlorinated lime is very different, and much more powerful. It liberates free chlorine gas—that yellowish green heavy gas with the peculiar smell that was the first gas used in the world war. It is used now the world over for purifying water. One part in a million of it is enough to kill the disease germs. So you see, when you are informed that you can purify your water by using chlorinated lime, don't spend your time thinking about the lime. It is the chlorine gas in it that does the work.

Just to show you how powerful chlorinated lime is, one 12 ounce can that costs you fifteen cents will produce enough chlorine gas to purify 24,000 gallons of water. Maybe, 24,000 gallons doesn't mean much to you. Then let us think of it in terms of barrels of water. One little can of chlorinated lime would purify 480 barrels of water. These same barrels of water, if laid aside, would reach about three hundred yards, or three times the length of a football field.

If the people in Morgan county wanted to do the right thing by their

drinking water, they would treat it all with chlorinated lime except perhaps the water from some wells that are sealed around the surface with concrete.

There ought to be a big market for chlorinated lime in this county, but as yet most of the merchants don't even know what it is. They'll stock it if you people will buy it. Come on. Let's all start asking at the stores for a can of chlorinated lime, so we can purify our water.

Directions for purifying water with chlorinated lime were published in last week's issue of the Licking Valley Courier. Directions can also be had free from the Health Department.—WALLACE BYRD, M.D., Director, Morgan County Health Department.
